

This is to voice my opposition to the FCC's proposed relaxation of media ownership rules (Docket No. 02-277) on June 2, 2003.

A fully functioning democracy depends on media sources with diverse voices and opinions as well as content relevant to local communities. Many citizens and U.S. senators have urged the FCC to provide full disclosure of any proposed changes and ample opportunity to comment before they are made final.

As a concerned citizen, I urge you to ensure full disclosure in advance about proposed action on this matter and adequate public hearings to discuss how such proposals will affect my community and our nation.

Sincerely,

Lynn Anderson
